NexPark Garage Intelligence

Operational Excellence and Superior Experience Through Better Garage Management

Your parking facility generates valuable data every day that can help you make better business decisions.

What is the NexPark Garage Intelligence?

Umojo's NexPark Garage Intelligence is a data analytics product and a core element of NexPark Smart Parking Solution, designed to drive unparalleled data insights into your entire off-street ecosystem. With Garage Intelligence you can collect, aggregate, analyze and deliver parking facility intel in real-time, across your entire off-street portfolio.

Garage Intelligence gives you extensive operational analytics and reporting capabilities including:

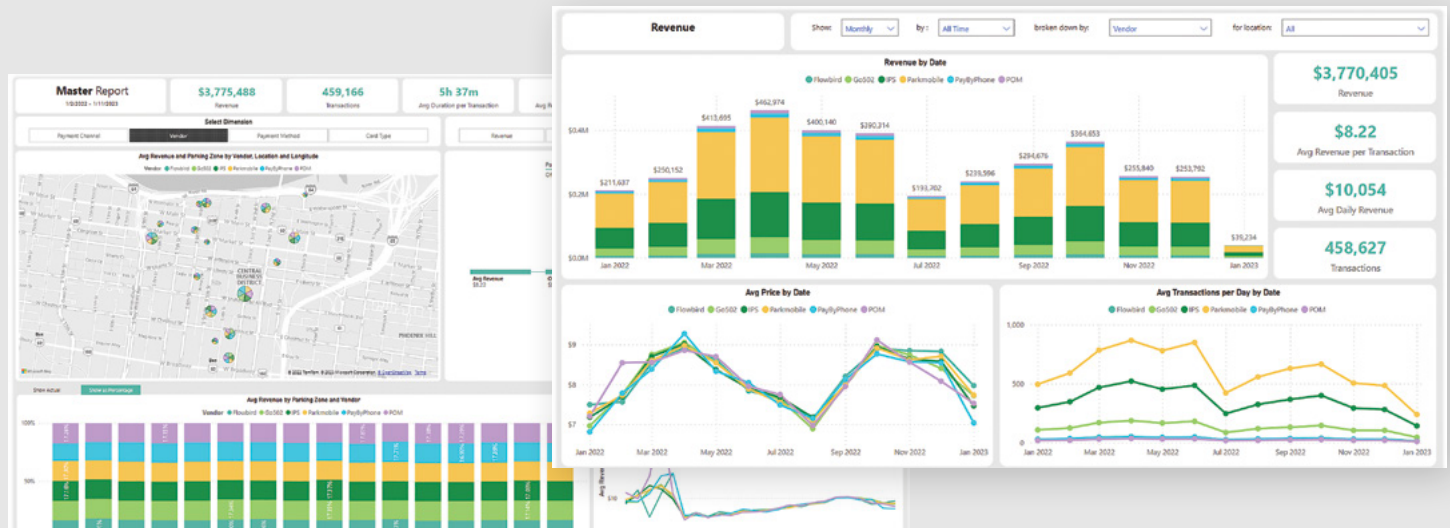

- Financial reporting and forecasting
- Multi-vendor data aggregation
- Role-based reporting and dashboards
- 24/7 remote, mobile access
- Facility-wide operational performance tracking
- AI-based predictive recommendations
- Incident alerts and notifications

With these capabilities you can make more informed decisions and empower smarter parking operations.

Reports and Dashboards Provide Insights via Microsoft Power BI

Gain insight via reports and interactive dashboards such as:

- Full incident tracking and reporting
- Lane and location-level statistics
- Heatmaps to assist in workforce management
- Milt-facility monthly reconciliation
- Revenue and KPI reporting
- Real-time occupancy tracking
- Customer service call analytics

Love for NexPark

Why You'll Love NexPark Garage Intelligence

- **Better Data Driven Decisions** – NexPark Garage Intelligence is built with parking operators in mind. Our Garage Intelligence reporting and analytics engine is completely web-based and accessible anywhere, anytime. Extensive operational reporting and forecasting capabilities and predictive recommendations help you to optimize decisions about services offered.
- **Aggregate Your Portfolio Intel** – Get aggregated data, reports and insights across your multiple facilities, even if they have different existing technology and equipment in each garage. Plus, NexPark will seamlessly integrate with any existing technology in your facilities. No need to “rip and replace” your current hardware or tech stack to gain the full the Garage Intelligence benefits.
- **Solve Customer Issues Before the Customer Even Notices** – With real-time intelligence from across your portfolio, gain the ability to troubleshoot and solve issues before the customer is even impacted. Get alerted early and quickly take action to ensure a smooth, forgettable parking experience for your customers.
